

MOHITH DHARSHAN J

SOFTWARE ENGINEERING / AI / FULL-STACK DEVELOPMENT

PROFILE

B.E. Computer Science and Engineering student building production-minded full-stack products, AI workflows, and computer-vision systems. Hackathon experience across healthcare and logistics, with a focus on clear architecture, dependable workflows, and practical delivery.

EXPERIENCE

Backend Developer & AI Trainer

Codeathon Hackathon | Feb 2026

- Built Node.js REST APIs and workflow services for structured data exchange.
- Integrated Firebase Realtime Database for synchronized application state.
- Contributed to a Random Forest classification workflow, testing, and debugging.

Frontend Developer

UniHealth - CMR Hackfest 3.0 | Jan 2026

- Built responsive React interfaces for hospital and pharmacy workflows.
- Integrated authentication and real-time Firebase data with backend coordination.
- Improved usability, tested critical flows, and supported the product demonstration.

SELECTED PROJECTS

Beyond Syllabus

Next.js | TypeScript | Prisma | MySQL

Interactive engineering learning platform with structured notes, visual modules, practice modes, podcasts, authentication, and AI-assisted study tools.

Urban Furniture OS

Next.js | Flask | PostgreSQL | GST

Furniture business operating system connecting inventory, purchasing, sales, GST invoices, payments, double-entry accounting, and reports.

PeoplePay360

Next.js | Prisma | MySQL | RBAC

Role-aware HR and payroll platform that turns contracts, schedules, attendance, leave, and salary rules into auditable payslips.

EXTendQuality

OpenCV | YOLOv11 | VLM | Next.js

Confidence-aware industrial inspection concept combining deterministic defect detection, selective VLM review, recommendations, history, and quality KPIs.

UniHealth

React | Node.js | MySQL | Security

Hospital operations workspace for doctors, beds, wards, patient queues, analytics, recovery, and server-generated audit history.

FairDispatch

Express | JavaScript | Firebase | Random Forest

Delivery-dispatch prototype exploring workload-aware assignment, live fleet visibility, stop progress, ETA estimates, disputes, and support workflows.

EDUCATION

B.E. Computer Science and Engineering

SRM Easwari Engineering College

2025 - 2029

Semester 1: 8.53 / 10

Semester 2: 9.16 / 10

First-year average: 8.85 / 10

TECHNICAL SKILLS

Languages

Java, JavaScript, TypeScript, Python, C++

Frontend

React, Next.js, HTML, CSS, responsive UI

Backend

Node.js, Express, Flask, REST APIs, Prisma

Data

MySQL, PostgreSQL, Firebase, SQLite

AI / Computer Vision

OpenCV, YOLOv11, VLM workflows, classification

Tools

Git, GitHub, testing, debugging, Figma

CORE STRENGTHS

- System and API design
- Rapid product prototyping
- Problem solving and OOP
- Cross-functional teamwork
- Technical demonstrations

ADDITIONAL WORK

VOE Web, student finance tools, drowsiness detection, QR scanning, and Java/C++ problem-solving repositories.

LANGUAGES

English - Fluent
Tamil - Fluent
